Roll Groover

- **Auto Tracking & Depth Setting Gauge Means Easier Use** - patented auto tracking technology for significantly easier grooving. Whether you're doing machine-powered or manual grooving, the Auto-Tracking gauge keeps the pipe automatically engaged to the groover throughout the grooving process. The 975 also includes a permanently depth setting gauge for quicker, repeatable set-up
- **Less Hand Force Required** - When manually roll grooving, the 975's 55% higher gear reduction means less hand force required versus competitive manual roll groovers. This is especially helpful for over-head roll grooving
